Janhvi Pradip Bankar

Computer Science Undergraduate

Sangola, Maharashtra, India +91-9421894793 janhvibankar2@gmail.com

linkedin.com/in/janhvi-bankar github.com/janhvibankar

Professional Summary

Computer Science undergraduate with experience in AI-based monitoring systems, backend development, and real-time data processing. Skilled in Java, MERN stack, Flutter, computer vision, and predictive analytics.

Education

B.Tech (CSE) Rajarambapu Institute of Technology, Islampur, Maharashtra **CPI: 8.34 - 2027**

HSC - New English School Jr. College, Sangola, Maharashtra **81.83% - 2023**

SSC - New English School, Sangola, Maharashtra **97.20% - 2021**

Technical Skills

Programming Languages: C, Java, JavaScript
Frameworks: Flutter, React.js, Node.js
AI/ML: YOLO, CNN, OpenCV, MediaPipe
Databases: MySQL, MongoDB
Tools: Git, VS Code, GitHub, Jupyter Notebook, Google Colab
Core Areas: OOP, DBMS

Projects

AI-Based Bharatanatyam Learning App

- Developed a real-time gesture recognition system using YOLO and CNN.
- Built a Flutter-based application integrated with backend APIs and created a custom dataset using OpenCV and MediaPipe.
- Designed the system to evaluate dance pose accuracy in real time.

MigraineGuardian – AI Migraine Risk Prediction System *Ongoing*

- Building an AI-based migraine early warning system that predicts daily migraine risk levels.
- Implementing adaptive trigger weighting, ML models, and a Flutter-based interface with health data visualization.
- Integrating chatbot assistance for preventive healthcare insights.

RAG Chatbot – Module of MigraineGuardian

- Designed and developed a Retrieval-Augmented Generation (RAG) chatbot with document ingestion, chunking, embeddings, and vector search.
- Implemented conversational memory using MongoDB and source citations for trustworthy responses.
- Integrated Groq LLM with an Express.js backend and React frontend.

Hospital Management System – MERN Stack

- Developed a full-stack application for patient registration and appointment scheduling.
- Implemented role-based authentication and optimized MongoDB queries.
- Designed scalable REST APIs for secure backend communication.

Achievements & Responsibilities

Winner – Smart India Hackathon (SIH) 2025

UI/UX Head – OysterCode Club

Social Media Head – Cryptex Club

Contributor – Social Shuffle Initiative

Certifications

- NPTEL – Machine Learning (IIT Madras, 12 Weeks)
- NPTEL – Java Programming (IIT Kharagpur, 12 Weeks)
- NPTEL – Database Management Systems (IIT Kharagpur, 8 Weeks)
- Google – iOS App Development Certification
- Infosys Springboard – Theory of Computation
- Infosys Springboard – Advanced HTML5 & CSS3
